Dunn's award-winning films on the dignity of the human person have touched the lives of thousands throughout the world.

He's been lauded by the medical profession for exposing the dangers of assisted dying laws, especially to the elderly, those who live with disabilities and people with mental illness.

He's interviewed patients, doctors, lawyers, caregivers, philosophers and journalists who have seen the inherent danger in giving physicians – or anyone for that matter – the legal right to end the life of another human being.

More importantly, Kevin's work underscores the need for each of us to become a *'prophet of hope'* in the lives of those around us.

Kevin's talk features his personal testimony as filmmaker and father of six, along with powerful clips from his films:

- [The Euthanasia Deception](#)
- [The Vanier Way, featuring Jean Vanier](#)
